

ESRNM 2013

44th Meeting of the Egyptian Society of
Radiology and Nuclear Medicine

Film-reading session

Prof. Ahmed-Emad Mahfouz, MD, FRCR

Cairo International Conference Center, Egypt, 13-15 April 2013

Case 1 Diagnosis

Adenocarcinoma of the gall bladder presented with deep venous thrombosis & pulmonary and systemic thromboembolism (Trousseau syndrome)

Case 2 Diagnosis

Pulmonary artery stenosis
(combined infundibular and
valvular) with intact
interventricular septum

Case 3 Diagnosis

Atrial septal defect with reversal of the shunt to be right-to-left (Eisenmenger syndrome)

Case 4 Diagnosis

Focal constrictive pericarditis at the atrioventricular groove causing extrinsic pulmonary, mitral, and tricuspid stenosis.

Case 5 Diagnosis

Intraperitoneal rupture of the urinary bladder

Case 6 Diagnosis

Rheumatoid arthritis

Case 7 Diagnosis

Epidermoid cyst of the the right
testis

Case 8 Diagnosis

Aneurysmal bone cyst of the
right tibia

Case 9 Diagnosis

Coarctation of the aorta

Case 10 Diagnosis

Laryngeal and tracheo-
bronchial amyloidosis

Case 11 Diagnosis

Periampullary carcinoma

Case 12 Diagnosis

Osteo-arthritis of the right
temporomandibular joint.
Congenital anomalies of the
cervical spine

Case 13 Diagnosis

Venous catheter in the azygos arch. Catheter-induced superior vena cava thrombosis

Case 14 Answer

4

Case 15 Diagnosis

Avulsion of the anterior inferior
iliac spine

Case 16 Diagnosis

Cystic fibrosis

Case 17 Diagnosis

Epidermal inclusion cyst

Case 18 Diagnosis

Inflammatory myofibroblastic
tumor of the left adrenal gland

Case 19 Diagnosis

Right-sided aortic arch and
aberrant left subclavian artery

Case 20 Diagnosis

Mucopolysaccharidosis

Case 21 Diagnosis

Acute cerebral infarction in a patient with polycythemia

Case 22 Diagnosis

Left bony cervical rib

Case 23 Diagnosis

Right proximal femoral
deficiency

Case 24 Diagnosis

Right lower lobe collapse
